Standard   2 double-acting and 1 double-acting with float and fines flow of return (total 7 hydrautic outlets)	Maximum hydraulic pressure (bar)	180				
With rear up Clown lift: up to 12 hydrouic outlets in total - With district ontrolled rear lift: up to 9 hydraulic outlets in total - With district ontrolled rear lift: up to 9 hydraulic outlets in total - Deportional electronic joints with new engonomic grip for controlling the rear lift (and front lift is present) and rear control valves replacing slandard coresis, Additional 36th time flow of return floats 15 hydraulic outlets, Potentionnets for adjusting the hydraulic flow rate and 51 him oversized pump. Renate IT 10 engagement control. Storage arrivers 15 hydraulic outlets, Potentionnets for adjusting the hydraulic flow rate and 51 him oversized pump. Renate IT 10 engagement control. Storage arrivers 15 hydraulical portion and draft-controlled arrange and adjusting the hydraulical portion and draft-controlled arrange adjustable in length and hooks adjustable in which within the rear and stable in length and hooks adjustable in which within the rear and stable in length and hooks adjustable in which the rear and stable in length and hooks adjustable in which within the rear and stable in length and hooks adjustable in which within the rear and stable in length and hooks adjustable in which within the rear and stable in length and hooks adjustable in which within the rear and stable in length and hooks adjustable in which within the rear and stable in length and hooks adjustable in which within the rear and stable in length and hooks adjustable in which within the rear and stable in length and hooks adjustable in which within the rear and stable in length and hooks adjustable in which within the rear and stable in length and hooks adjustable	REAR CONTROL VALVES	Mechanically controlled				
Proportional electronic josets, with new regrouning gir for controlling ter earn till and format till greened and near control valees consisting of 1 confinions of the oriental includes to earlier and of control includes on the earlier and of control includes and earlier and oriental includes and earlier and control includes and earlier and includes and earlier and includes and earlier	Standard	2 double-acting and 1 double-acting with float and free flow oil return (total 7 hydraulic outlets)				
confinances flow with adjustable flow rate and fives flow of return, 4 double-acting and 1 double-acting a	Optional	With rear up/down lift: up to 12 hydraulic outlets in total - With draft-controlled rear lift: up to 9 hydraulic outlets in total				
3-point implement hitch Standard: Normal couplings cat. 1 and 2 Optional: Quick-couplings cat. 1 and 2, arms adjustable in length or Quick-couplings cat. 1 and 2, Lehaped, arms adjustable in kingth and hooks adjustable in width Third point tier od Standard: with manual adjustment - Optional: hydraulically controlled upper link and tie rod link arm Ball joint iffing capacity (kg) 2900 FRONT LIFT (optional) Two-cylinder, complete with front bumper and 4 front hydraulic cutlets (replicated from the rear) Third point arms Rigid with quick-couplings cat. 1 Lifting capacity (kg) 800 BRIVING POSITION Reversible with rotating platform suspended on silent blocks. Suspended pedals mounted on the rotating control tower Steering wheel Tit adjustable Seat With gas spring for easy tipping, selety belt and man-on-board sensor. Standard: comfort seat with adjustable spring tension according to the operator's weight - Optional: Grammer or 'Cobo pneumatic seat  SERVICE BRAKES Oli bath discounts with hydrostatic control, acting on the forur wheels with automatic engagement of the 4-wheel drive. Independent manoeuving brakes acting on the near wheels  Automatic and independent Brake-Off acting as emergency brake with proportional action  STEERING Hydrostatic steering acting on the front wheels. Flow deviator for steering unit  SAFETY Standard: front homologated roll-bar with gas springs for easy lowering and fitting  Available in two versions. WSTA PRO model, pressured and category 4 approved starbated carbon fitters required. Sundarcot Four post anomocopy a feature with control fitting latery does not shall develop and source process from with control miles for selecting or search of the service of the cab (total of 10 lights), LED beacon lamp, Optional activated carbon fitters required. Sundarcot Four post activated carbon fitters or adjust the handsface. Two USB sockets. LED worklings for in hour sides of the cab (total of 10 lights), LED beacon lamp, and rear lights. ArC, ventilation and heating system. Car racio preparation,	Joystick (optional)	continuous flow with adjustable flow rate and free flow oil return, 4 double-acting and 1 double-acting with float (control valves replacing standard ones). Additional 3/8" free flow oil return (total 13 hydraulic outlets). Potentiometer for adjusting the hydraulic flow rate and 51 I/min oversized pump.				
Third point tier od Standard: with manual adjustment - Optional: hydraulically controlled upper link and tie rod link arm  Standard: with manual adjustment - Optional: hydraulically controlled upper link and tie rod link arm  Rigid with manual adjustment - Optional: hydraulically controlled upper link and tie rod link arm  Rigid with quick-couplings cat. 1  Lifting capacity (kg)  800  DRIVING POSITION  Reverable with rotating platform suspended on silent blocks. Suspended pedals mounted on the rotating control tower  Steering wheel  Tilt adjustable  Tilt adjustable  Tilt adjustable  Tilt adjustable  Tilt adjustable  Seat  Uithing as spring for easy tipping, safety belt and man-on-board sensor. Standard: comfort seat with adjustable spring tension according to the operator's weight Optional: "Grammer' or "Coop" pneumatic seat  SERVICE BRAKES  Oil bath discs with hydrostatic control, acting on the four wheels with automatic engagement of the 4-wheel drive. Independent manoeuvring brakes acting on the rerar wheels.  Parking brake  Automatic and independent Brake-Off acting as emergency brake with proportional action  STEERING  Hydrostatic steering acting on the front wheels. Flow deviator for steering unit  SAFETY  Standard: front homologated roil-bar with gas springs for easy lovering and titing  Available in two versions. VISTA PRO model, pressurised and acting by a spring for easy flowing and roil-bar with gas springs for easy lovering and titing  Available in two versions. VISTA PRO model, pressurised and acting yet approved (activated carbon filters required). Soundproof. Four-poet innoncoopula frame with concal profile, mountand on slent blocks. Fully glazed doors and cloth seat. AC, verillation and heating system. Dust filters in slent blocks. Fully glazed doors and cloth seat. AC, verillation and heating system. Dust filters in the concal profile in touristic or adjustable spring lights and hore  ELECTRIC SYSTEM  Battley 80 Ah / 12 V - Alternator 96 A  Standard: front and rear CUNA cat. C adjustable in	REAR LIFT	Standard: up/down lift with two external cylinders - Optional: position and draft-controlled				
Ball joint lifting capacity (kg)  2300  FRONT LIFT (optional)  Two-cylinder, complete with front bumper and 4 front hydraulic outlets (replicated from the rear)  Third point arms  Rigid with quick-couplings cat. 1  Lifting capacity (kg)  800  DRIVING POSITION  Reversible with rotating platform suspended on silent blocks. Suspended pedals mounted on the rotating control tower  Steering wheel  Tilt adjustable  Seat  With gas spring for easy (pping, safety belt and man-on-board sensor. Standard: comfort seat with adjustable spring tension according to the operator's weight - Optional: 'Grammer' or 'Cobo' pneumatic seat  SERVICE BRAKES  Oil bath discs with hydrostatis control, acting on the four wheels with automatic engagement of the 4-wheel drive. Independent manoeuvring brakes acting on the rear wheels  Parking brake  Automatic and independent Brake-Off acting as emergency brake with proportional action  STEERING  Hydrostatic steering acting on the front wheels. Flow deviator for steering unit  SAFETY  Standard: front homologated roll-bar with gas springs for easy lowering and lifting  Available in two versions. VISTA PRO model, pressured and category 4 approved (activated carbon filters required), Soundproof, Four-post monocoque frame with conical profile, mounted on alient blocks. Fully glazed doors and cloth seat. ArC, ventilation and healing system. Dust filters category 2. USB blueboat come radio with shardsfree. Two USB sockets. LED beacon lamp. Optionals activated carbon filters for category 4.SPACE CLIMA model, homologated and soundproof. Sucpost monocoque frame mounted on slent blocks. Fully glazed doors and cloth seat of 10 flights, LED beacon lamp. Optionals activated carbon filters for category 4.SPACE CLIMA model, homologated and soundproof. Sucpost monocoque frame mounted on slent blocks. Fully glazed doors and cloth seat of 10 flights, LED beacon lamp. Optionals activated carbon filters for category 4.SPACE CLIMA model, homologated and soundproof. Sucpost monocoque frame mounted on slent blocks. F	3-point implement hitch					
FRONT LIFT (optional) Two-cylinder, complete with front bumper and 4 front hydraulic outlets (replicated from the rear) Third point arms Rigid with quick-couplings cat. 1  Lifting capacity (kg) 800  DRIVING POSITION Reversible with rotating platform suspended on silent blocks. Suspended pedals mounted on the rotating control tower  Steering wheel Tit adjustable Seat With gas spring for easy tipping, safety belt and man-on-board sensor. Standard: comfort seat with adjustable spring tension according to the operator's weight - Optional: Grammer' or 'Cobo' pneumatic seat  SERVICE BRAKES Oil bath discs with hydrostatic control, acting on the four wheels with automatic engagement of the 4-wheel drive. Independent manoeuvring brakes acting on the rear wheels  Parking brake Automatic and independent Brake-Off acting as emergency brake with proportional action  STEERING Hydrostatic steering acting on the front wheels. Flow deviator for steering unit  SAFETY Standard: front homologated roll-ber with gas springs for easy towering and lifting  Available in two versions. VISTA PRO model, pressurised and category 4 approved (activated carbon filters required). Soundproof: Four-post monocopus frame with control profile, mounted on safert blocks. Fully glazed doors and cloth seat. ACc, verification and heating system. Dust titlers monocopus frame with control profile, mounted on safert blocks. Fully glazed doors and cloth seat. ACc, verification and heating system. Dust titlers monocopus frame with control profile, mounted on safert blocks. Fully glazed doors and cloth seat. ACc, verification and heating system. Dust titlers monocopus frame with control profile, mounted on safert blocks. Fully glazed doors and cloth seat. ACc, verification and heating system. Dust titlers monocopus frame with control profile, mounted on safert blocks. Fully glazed doors and cloth seat. ACc, verification and heating system. Dust titlers across the profile of the full blocks. Fully glazed doors and cloth seat. ACc, verification and heating syst	Third point tie rod	Standard: with manual adjustment - Optional: hydraulically controlled upper link and tie rod link arm				
Third point arms Pigld with quick-couplings cat. 1  Lifting capacity (kg) B00  PRIVING POSITION Reversible with rotating platform suspended on sitent blocks. Suspended pedals mounted on the rotating control tower  Steering wheel Tit adjustable With gas spring for easy tipping, safety belt and man-on-board sensor. Standard: comfort seat with adjustable spring tension according to the operator's weight - Optional: Grammer' or 'Cobo' pneumatic seat  SERVICE BRAKES Oil bath discs with hydrostatic control, acting on the four wheels with automatic engagement of the 4-wheel drive. Independent manoeuvring brakes acting on the rear wheels  Parking brake Automatic and independent Brake-Off acting as emergency brake with proportional action  STEERING Hydrostatic steering acting on the front wheels. Flow deviator for steering unit  SAFETY Standard: front homologated roll-bar with gas springs for easy lowering and lifting  Available in two versions. VISTA PRO model, pressurised and category 4 approved (activated carbon filters required). Soundproof: Four-post monocoope frame with conical profile, mounted on silent blocks. Fully glazed doors and other sat. ArC, veritiation and heating system. Dust filters category 2. USB blustooth car radio with handsfee. Iwo USB sockets. LED seaded and soundproof. Six post monocoope frame homologist activated carbon filters required). Soundproof is post monocoope frame production activated carbon filters and the standard and soundproof.
